

With a variety of uses, a flexible sound system was proposed which allows use for most forms of event. A digital audio mixer was provided for the new hall and linked to network with an existing system in another hall.

Management can change the configuration and setup from any computer in their building via proprietary software to suit the requirements of their client.

The new venue expands the facilities on offer at this large site in Harrogate to a potentially larger audience.

# Yorkshire Event Centre

## Harrogate

PAS were awarded the contract to supply and install a multi-zone Public Address & Background Music System to the brand new exhibition hall which offers up to 4320m<sup>2</sup> of flexible space for exhibitions and events.
